Further Information

Particular emphasis is placed on safety and security in order to provide the highest level of protection for residents. Heathercliffe has fully compliant fire and nurse call alarm systems installed.

Also, firm emphasis is placed on staff training and development to ensure standards are not only met to satisfy the internal requirements of the Home, but also by external inspection to meet the ever increasing demands placed on the care industry. From the initial selection of new staff, each member is actively encouraged to develop their own particular skills and abilities within a professional team environment.

Fees depend on the level of care required and accommodation provided. Our Manager, Sarah Turner, would be very happy to discuss this with you at your visit.

The Management and staff extend a warm welcome to all and invite a personal inspection for those seeking the highest standard of care.

We look forward to meeting you.

Finding Us

Heathercliffe is situated on Old Chester Road which runs parallel with the A56 Chester Road running through Helsby, approximately 2 miles from Frodsham.

From Frodsham the easiest approach is at the 'Robin Hood' pub to take the left turn up Robin Hood Lane, turn left at the top, proceed under an overhead bridge and the home will then be seen on your left.
